We Have Liftoff! *The Goddard Flight* was launched May 20, 2011

Launch of *The Goddard Flight*
Click [here](#) to view the launch video.

Name A Star Live is proud to announce the sixth launch of our customers' star names into space on board *The Goddard Flight*. Launch occurred at 7:21 am MDT, Friday, May 20, 2011 from Spaceport America, New Mexico on board an [UP Aerospace SpaceLoft XL launch vehicle](#).

After flying in space, the rocket's payload -- including the star names and messages -- re-entered the Earth's atmosphere and parachuted to Earth. We should have photos and video of today's launch available on this Web page later today.

The star names and Star Certificate personal messages of all Name A Star Live customers who purchased on or before May 3, 2011 were on this spaceflight.

The flight is named after the father of American space exploration, Dr. Robert Goddard, who performed much of [his pioneering aerospace work in New Mexico](#).

You are entitled to a free digital Launch Certificate!

If you [ordered one of our gift sets](#) on or before May 3, 2011 then you are entitled to a free, Digital Launch Certificate. You can also order prints of your Launch Certificate. Digital Launch Certificates should be available one to two weeks after launch. Please [click here](#) to order your free Digital Launch Certificate.

Mission patches, lapel pins, and more featuring the *Goddard Flight* mission logo design are available [here](#).

We also include our customers' star names and messages on missions into Earth orbit and beyond. Please visit our [Launch Schedule page](#) for information about upcoming missions.
