LAS CRUCES - More than 200 middle school and high school students in Las Cruces are prepa experiments to launch into space on April 1 at the annual New Mexico Space Grant Consort Student Launch.

The experiments will be carried into space on board the SL-5 launch vehicle from Spaceport Amer in southeastern Sierra County.

Las Cruces students will be on hand to see their projects take off during the biggest launch ever date for Spaceport America.

Schools represented are Loma Heights Elementary, Mesa Middle School, Picacho Middle Sch Sierra Middle School, Zia Middle School, O-ate High School, Mayfield High School and New Me: State University. In all, more than 800 students from New Mexico, west Texas and Arizona will wa as their experiments go into space.

The student la... ..
